***Karstens Conference Centre***
**123 Queen St, Melbourne**

Critical Agendas

***Nadia Adbelal*** is a passionate mathematics educator, consultant, presenter and writer of maths literature, who has worked extensively in both primary and secondary school classrooms.

She offers support to students, teachers and parents in both regional and remote areas to encourage and promote a love of the teaching and learning of Mathematics. Her methods of conceptual pedagogy provide a fresh alternative to the traditional chalk and talk approach and support her motto of "Learning in Context".

A confirmation email will be sent to each applicant

**www.criticalagendas.com.au**
**COST: $279 + GST**

*Cost includes: Program, any issued notes, participation certificate, morning tea and lunch.*

## *Program Description*

We have all been early career teachers and understand how overwhelming it can be in those initial years. For primary teachers it can be particularly challenging due to the number of domains that need to be individually addressed.

Streamlining the process is crucial for the successful delivery of an engaging Mathematics curriculum and in this interactive workshop we will look at how this can be done effectively.

Bring along a mathematics unit you would like to plan for and together, we will develop it from its foundations around the Victorian Curriculum: Mathematics to the final assessment task.

Remember to wear your comfy shoes as there will be lots of fun activities and goodies to take away and use in each one of your maths lessons.

## *Target Audience: All Primary School Teachers. 6 PD hrs*
